
Title: The Ascended Ones

Author: Kaylira

Where do the
mysterious wisps
come from? Many
have asked
the question, yet so
few, if any, know the
answer...

Many have
theorized that humans
will not always possess
the crude physical
form that we hold
today, but will move
onto the next level of
being. That of
pure energy and light.
I believe that the
wisps have already
reached this level of
existence, and once
possessed physical
bodies much like
ourselves.

The question is,
why are they here?
Most believe that they
have a purpose here,
but none are truly
sure what that
purpose is. The
answer seems quite
simple to me. The
wisps were alerted to
the presence of a great
evil in our world.
Perhaps even one that
they have vanquished
on their world. Or it
could be that this evil
is so great that even
they could not defeat
it. Thus, they came to
our world in order to
join forces with us.
Whatever the case is,
they see us as they
were once, and wish to

help us reach the level
of enlightenment that
they have reached.
However, the main
problem would seem to
be the simple fact that
we cannot
communicate with
them, as they cannot
communicate with us.
I do not believe that the
problem is that they
simply don't wish to,
or don't have the
capacity to speak our
language, but that we
not only talk in
different ways, but
think in different
ways. Perhaps they
simply cannot grasp
how our minds work,
as we wouldn't be able
to understand how
their minds work.
Despite this, they
seem to be determined
to find a way. Maybe
it's just a matter of
time before they find
a mode of
communication with
us. It could be possible
that they don't talk
with sounds, but
instead their minds.
Perhaps what many
say is no more than
simply random sounds
is just that. If they do
communicate
telepathically, then
maybe they are
simply finding the
way to tune into the
particular resonance
of the human mind.
Or maybe it's not
possible, us still being
in the physical state,
unlike them. Perhaps
we must first reach
their level of being
before true
communication is
possible. If that is
true, then we will not
be talking with them

for a good while,
considering the sad
state of affairs in our
Britannia. Hopefully
they will show us the
path that they
followed to get to
where they are, and
we can join them,
because I'm sure that
at our most
fundamental levels,
the wisps and us
are very alike...
